

Heads Up

Issue: 170

Date: 2010/01/20

To: ANAB Accredited and Applicant AQMS CBs and Accreditation Assessors

From: Lori Scheid-Gillespie, Manager of Accreditation

Subject: IAQG Information for the Transition to the 2009 Versions of AQMS Standards

This Heads Up is being issued as notice to all aerospace CBs and ANAB assessors that the IAQG OPMT has just issued the Supplemental Rule 001 and Resolution #71 to support the previously issued 91XX:2009 transition schedule.

All of the documents can be found on the OASIS database, www.iaqg.org/oasis (on the front page prior to logging in). ANAB recommends you review this information immediately.

To assist CBs in planning the transition as early as possible, as outlined in SR 001, ANAB has been given approval to provide each CB with a copy of the 9104/1 ballot draft document. This is attached to the e-mail and will **not** be made available on ANAB's Web site per the IAQG's request.

Given that this document is still in draft and currently being balloted, there may be changes when published; however, the 9104/1 rewrite team is fairly confident that any changes will be minimal. ANAB highly recommends that CBs start the transition process internally and begin discussions with customers, being aware that there may be some changes a few months down the road when the 9104/1 is published.
