Re: Updated ANAB CB Fee Schedule

ANAB has revised the fee schedule to change some of the accreditation programs from subordinate to base or sub-subordinate to subordinate, with corresponding changes in fees.

A subordinate standard includes a base standard (e.g., AS9100 includes ISO 9001 and TL 9000 includes ISO 9001) but our fee schedule classifications did not reflect this with regard to ISO 13485 and ATFS.

Also, AS9003 and AS9120 were moved from sub-subordinate standard programs to subordinate standard programs because they are based on a base standard (ISO 9001) and not a subordinate standard.

The fee changes include the application, annual, and royalty fees for the standards referred to above.

**The new fee schedule will be effective 2011/01/01. It can be found at [www.anab.org](http://www.anab.org). Click on "Documents" and select "Fee Schedule" and you will find links for both the current fee schedule and the new fee schedule.**
